Subject: SKANS RAR Campus, Rawalpindi

In the process of result compilation of CAF for March 2021, ICAP Spring 2021 exams were held from March 1, 2021 to March 7, 2021. The result was declared on 4th May 2021. We started categorizing result in sixteen variables (in total) as per SOPs (issued dated 15th December, 2020). During the 1st session under review at SKANS RAR Campus, only eight variables (Absent, Ghost, Invalid CRN, not eligible, Password changed, Post result Drop, Result not found, Zero attempt in ICAP) were identified other than Pass and Fail. The relative percentage and number of variables can be seen in the table/graph titled “Composition of Variables as per SOPs-CAF” March 2021.

	PASS	Invalid CRN	Not eligible	Password changed	Post Result Drop	Result Not Found	Zero Attempt In ICAP	Absent	GHOST	FAIL	ICAP TOTAL PAPERS
PAPERS	219	19	31	41	36	7	160	84	8	297	902

The resulting deviation from the normalization i.e., 25.16% (227 PAPERS /902 PAPERS) was due to inherited limitation which was categorized as “Not eligible, Post result drop, Zero attempt”. Other non-inherited system limitations include “Ghost Papers, Invalid CRN, Password changed, Result Not Found & absent.” I.e., 17.62% (159 papers /902papers). Gross Basis ~~Mar Pas~~ Total Papers (219/902)

	Gross Pass	Gross Fail	Others
ICAP Result	24.27%	32.9%	42.8%

Overall campus result in aggregate of CAF batches is 24.27% (219/ (219+297) papers) on NetBasis. The failure percentage is 297 papers in current period i.e., 32.9% (*net basis*).

	Net Pass	Net Fail
ICAP Result	42.4%	57.5%

So, the effective campus aggregate rate will be considered 42.4% (219/ (291+297)). Teacher-wise and subject-wise system generated report is attached.

Pass Papers in ICAP	Fail Papers in ICAP	Total Effective Papers in ICAP
219	297	516

Relevant supporting evidences can be found in the file/Database reports. All these procedures and evidences is being documented in Internal ICAP Result KPIs file for the current session March2021 attempt for future reference and guidelines.

Departmental matters are also addressed in different sections of this report along with future directions. Moreover, this report is available for session end academic audit by an external party if required. All under review session results have been discussed with the relevant teachers. Our teachers or relevant subject team can discuss results with Principal/CEO if required for further improvements in the external exams of ICAP results for the session under review.

Daily SMS to Absent Students and Follow UPs

During the period under review, SMS to absent students were sent on daily basis. This activity was started on 1st October 2020 when government announced the second lockdown in the country due to the second wave of COVID 2019. During this period, 3700 SMS in total were sent to the students from 1st October 2020 till 28th Feb 2021 for all CAF batches for online classes.

Extensive follow ups in this regard were carried out by coordinator Ms. Almas Malik, Sir Salman Hamid & Ms. Afsheen Abbasi in the start. In order to make it more effective practice or drill in future, it will be highly recommended to record all types of follow ups under SOP's i.e., automated batch-wise SMS must be sent and reported in order to evaluate the effectiveness of this component.

For this a new category of SMS may be generated by pooling into it all those students who have low attendance and Absent/fail in online Tests (2 tests) simultaneously in a month for parents' follow-up.

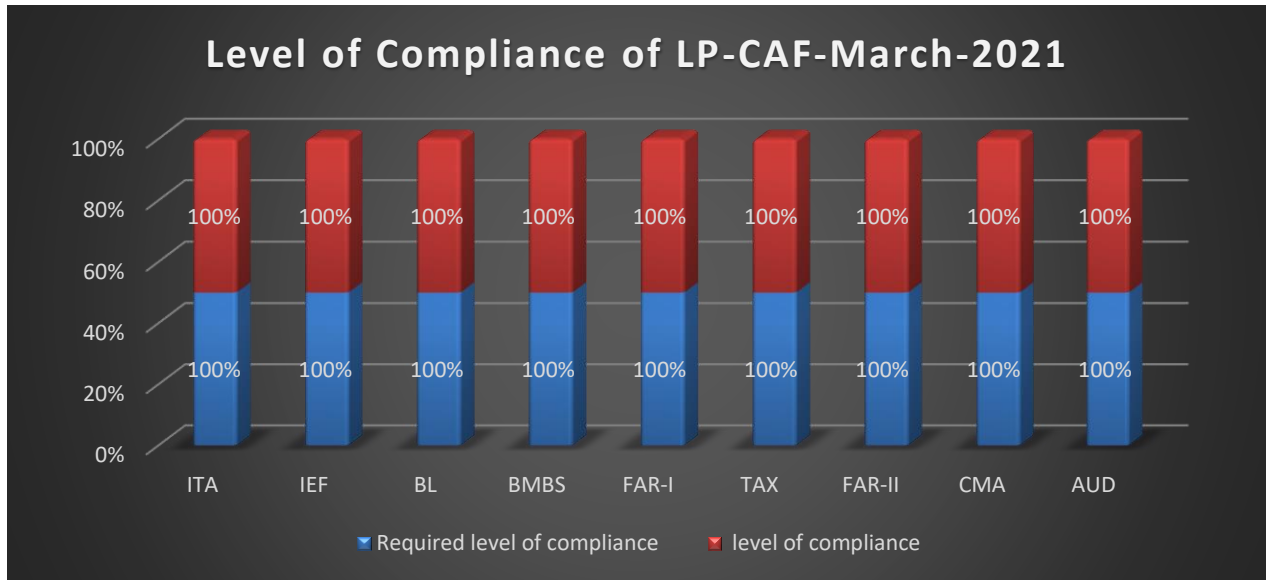

Therefore, it is highly recommended to trim our system of SMS on the above-mentioned framework. This will help us to fix the problem area in time and make a meaningful comparison. (For IT solution department)

Testing Section, Teachers Evaluation /PTM

For the period under discussion, special efforts were made in terms of 'Testing' in order to make up for deficiencies caused by online classes. For the record, testing was done at 100% level of effort on departmental level. Teachers tested the students as per LP and re-test were conducted accordingly. The efficiency of these tests at student level was average at an approximate 50%. This is due to the distance learning environment. We made efforts to contact students and urged them to participate in online testing through follow-ups at teacher level. Due to different factors i.e., bad internet service, lack of self-motivation and no physical supervision, a smaller number of students attempted the tests. Testing ratio of this session at conduction level 100% whereas student's attendance in testing was 50%. Therefore, it is recommended that management or testing department take serious steps and carry out strong timely follow ups through system generated SMS service on daily basis.

Under the review period of CAF March 2021, further, it is recommended to IT software department to trim the required message (SMS) to failure and absent students in tests. Whereas, currently SMS on testing is sent to the pass and failure students. Further, SMS must also be trimmed as per subject wise and batch wise so we can correlate this with the strong follow ups. During the period under review, Physical PTM's and teacher evaluation were not conducted due to COVID-19 situation whereas remaining meetings were conducted on telephone by the coordinator and teachers.
